

## Panty Card Template

1. Use skin colored card of your choice to cut out the panty card base.
2. Use patterned DP or colored card to cut out your bikini pants or panties (by using this pattern you have a bonus option of making a bra card too)
3. I can get both the top and bottom cards out of one piece of skin colored card ... I am using Australian sized card ... you may need to reduce it slightly to do the same
